# Blackboard or ULearning?

In doubt if Ulearning could replace Blackboard for your course? Find out how to use the same features you used in Blackboard in Ulearning and how the use of Ulearning could strenghten your course even more.

Similarities

Hesitant to rebuild your course? Fortunately, Uleraning offers similar functionalities as Blackboard:

Personalize your course overview

Send announcements to students

Create groups manually or automatically

Share documents

Share videos

Create and grade assignments

Facilitate online discussion boards

Integrate external tools

Extra opportunities

Ulearning offers you tools to increase interactivity between students. Additionally, it offers a clear and structured overview of available materials and activities. Look at the screencaptures in Teams to find out more!

Structure your course based on weeks or themes

Decide when to show or hide learning activities

Chat with your students

Mindmap tool for graphical processing

Create adaptive content

Create interactive activities with H5P, like quizzes and interacitve videos

Facilitate peer feedback assignments where peers can hand in as groups
